Have you ever been told by a physician that you need to take antibiotic premedication before dental appointments? Some examples of conditions requiring premed are: artificial joints or hardware and heart stints or valves. YES NO Are you taking any blood thinners? YES NO

Consent to Perform Dentistry

1. I hereby authorize and direct Galen Van Blaricum D.D.S., Nealy Newkirk D.D.S., and Brad Adams D.D.S., dental hygienists and or dental auxiliaries of their choice, to perform the following dental treatment or oral surgery procedures, including the use of any necessary or advisable local anesthesia, radiographs (x-rays), or diagnostic aides.
 - A. Preventive hygiene treatment (prophylaxis) and the application of topical fluoride.
 - B. Application of plastic “sealants” to the grooves of the teeth.
 - C. Treatment of diseased or injured teeth with dental restorations (fillings, onlays, crowns).
 - D. Replacement of missing teeth with dental prosthesis, (bridges, partials, full dentures or implants).
 - E. Removal (extraction) of one or more teeth.
 - F. Treatment of diseased or injured oral tissue (hard or soft).
 - G. Treatment of mal-posed crooked teeth and or oral development or growth abnormalities.
2. I understand that there are risks involved in this treatment and hereby acknowledge that these risks will be explained to me, that I will have the opportunity to ask questions regarding the treatment and the risks, and that I fully understand the same.
3. I agree to the use of local anesthesia and the use of Nitrous Oxide/Oxygen analgesia depending on the judgment of the doctor. Nitrous Oxide/Oxygen may occasionally cause nausea and vomiting. I am also aware that the nose piece leaves an indentation or ring around the nose which disappears shortly after the procedure. I understand and have been informed of the above risks and complications.
4. I recognize that during the course of treatment unforeseen circumstances may necessitate additional or different procedures from those discussed. I therefore authorize and request the performance of any additional procedures that are deemed necessary or desirable to oral health and wellbeing in the professional judgment of the dentist.
5. There are possible risks and complications associated with the administration of local anesthesia. The most common of these are swelling, bleeding, pain, nausea, vomiting, bruising, tingling and numbness of the lips, gums, face and tongue, allergic reactions, hematoma (swelling or bleeding at or near the injection site), fainting, lip and cheek biting resulting in ulceration and infection of the mucosa. I also understand that there are rare potential risks such as unfavorable reactions to medications in respiratory and cardiovascular collapse (stopping of breathing and heart function) and lack of oxygen to the brain that could result in coma or death. I understand and have been informed of the above risks and complications.
6. I also authorize the doctor to use photographs, radiographs, other diagnostic materials and treatment records for the purposes of teaching, research and scientific publications.
7. I will be advised that the success of the dental treatment to be provided will require that the patient and the parents follow post –operative and post- care of the dentist and his auxiliaries. I agree that the success of the treatment requires that all post-operative and post care instructions be followed and that regular office visits as scheduled by the dentist and his auxiliaries must be maintained.
8. I hereby state that I have read and understand this consent, and that all questions about the procedures will be answered in a satisfactory manner, and I understand that I have the right to be provided answers to questions which may arise during and after the course of my treatment.
9. I further understand that this consent will remain in effect until such time that I choose to terminate it.
10. By signing I also acknowledge that I have read and have been offered a copy of our Privacy Practices.
